

DAMP WALLS.—NEW PATENT PAINT, as used in the Tower, by order of HER MAJESTY'S HONORABLE BOARD OF BRIDGES, of the TUNNEL; BOULGARD GARDENS, Regent's Park, and various other public and private buildings; in quantities to suit every square yard for

PATENT LIQUID CEMENT for the fronts of houses, for beauty of ornament, giving the appearance of the real stone, and only one-eighth the cost of Oil Paint. In casks of 1, 2, and 3 cwt. at 10s. and 15s. each.

PATENT MINERAL PINK PAINTS, invaluable for cheapness, beauty, and permanence, ready for use. White Stone and Lead, in Ovens and Blows, as per gallon.

BLACK MINERAL PAINT, very permanent, half the usual weight, and ready for use.

NEW PATENT COLOUR for inside work, may be applied on Wet Surfaces, Cement, or over Oil Paint. No smell, and will dry in an hour. In casks of 1 cwt. of 10s.

A. BELL, and Co. Steam Mills, 4, Wellington-street, Goswell-street, London.

HUBBUCK'S PATENT WHITE ZINC PAINT, THE PERMANENT WHITE of the Academies, by its excellent whiteness, resistance to the use of the artist, is now used at the price of the ordinary white lead.

Four years since the proprietors placed their manufacture on a large scale, and put this elegant paint in competition with White Lead. It is advanced superiority over every other paint hitherto known brought forward, various imitations.

Their inferior production, frequently made from zinc ore, containing lead, arsenic, and other deleterious material, affords injuries to health, and is inferior in body, and reducing the preservative properties for which the original paint stands pre-eminent.

In justice to the proprietors, they should not be confounded with the original, even though sold under the pretence that it is all the same.

Hubbuck's paint is entirely free from any injurious properties whatever: it is healthful to the manufacturer, healthful to use, and beautiful in appearance of rooms newly painted with it.

As a guard to the painter against the substitution of the inferior paint, each cask is stamped

"HUBBUCK, LONDON, PATENT" and the mark has not been so marked, the reason is evident.

The powdered White Zinc also may be had for grinding in oil: also for use for porcelain glaze, for japanning, for gilding, and for the painter's department, where it is used with zinc, iron, vermilion, &c. &c.

A circular with full particulars may be had of THOMAS HUBBUCK and SON, Colour Manufacturers, opposite the London

PURE PATENT WHITE ZINC PAINT, OF THE VIEILLE MONTAGNE ZINC MINING COMPANY OF BELGIUM.—This Paint is superior in every respect to White Lead, which it displaces, and is more durable; it is more easily worked after it is applied, and is, therefore, susceptible of a very high polish. It is unaffected by sea-water, sulphureted hydrogen, or any other gas.

WHITE ZINC PAINT having some of the poisonous qualities of White Lead, avoids the dangerous diseases to which workmen, as well as persons inhaling the suspended fumes, are subject.

THE VIEILLE MONTAGNE COMPANY impart the Order in each bearing their mark, V.M. without which some are grafted, and sold as White Zinc; and from the same source, and Co. Hall. It may also be obtained from the Ordnance Agents, Messrs. C. DEVAUX and Co. 8, King William-street, City. Wholesale Agents, Mr. CHARLES JACOB, 4, Tottenham-court, New-road, and 2, Upper Thackeray-street, who sell in bulk of 14 lbs. in 10s. and 12 lbs. in 9s. and 10s. and of 1 lb. in 1s. 6d. and 1s. 3d. A. ANDERSON and Co. Timber-bush, Leith, wholesale and retail.

The Company also employ a painter, who will undertake any description of painting in Time by contract.

Since its introduction into the United Kingdom, the Admiralty and the most eminent professional men have given it their preference. The public is cautioned, that if White Zinc Paint is adulterated, it becomes a very inferior paint, and poisons and washes off.

For further particulars apply to Mr. H. T. SCHEWELL, General Agent for the United Kingdom, of the Company's Office, 15, Manchester-buildings, Westminster.

THE WASHINGTON CHEMICAL COMPANY, NEWCASTLE-ON-TYNE.

Manufacturers of PATTERSON'S OXICHLORIDE OF LEAD.—The Washington Chemical Company having, during the last year, established a manufacturing Pattinson Oxichloride of Lead on a large scale, and being able to supply it with regularity, and to execute orders without delay, now present to bring this new and valuable preparation of Lead before their friends and the public, with a view to its being used in preference to the common white lead, and that it is judged by the merit, it must make its way, and finally take its place as one of the important constituents of this country.

Oxichloride of Lead is a chemical combination of a compound of Chloride of Lead and one equivalent of Oxide of Lead. It being well known that common White Lead is a chemical combination of one equivalent of Oxide of Lead, and one equivalent of the hydrochlorate of Acetic Acid, constituting what is called in chemical language, the Chloride of Lead, there is no reason to suppose that Oxichloride of Lead is the only compound of lead suitable as a paint, and still less that it should be the best compound of lead for that purpose. In point of fact it is not so; for the Oxichloride of Lead is much more brilliant in color, and in a number of cases it has been tried against the best White Lead that could be obtained, and after a period of exposure of two years it has been found to retain its white color, considerably better than the lead compound which was tried.

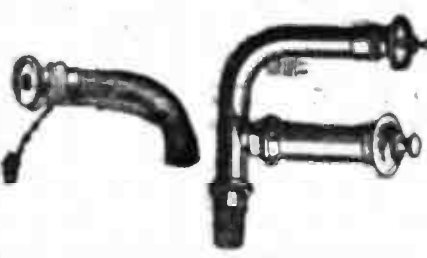

But the chief advantage by far the most important advantage it possesses is its remarkable and very decided superiority of Body; by which term the power of covering surfaces well and extensively is understood among Painters. The exhibition of the discovery was at a very early period drawn to the attention of the public, and that time the Washington Chemical Company have had abundant opportunities of placing its superiority in this important particular beyond all doubt. They have themselves performed a number of experiments, and have also caused a number of experiments to be performed in the large way, by various practical men, to ascertain accurately its covering power as compared with the best White Lead, and they now state the proportions to be as 10 to 12, that is, 10 lbs. of Oxichloride of Lead will cover as much surface as 120 lbs. of the best White Lead, the saving of cost being in the same proportion; besides that the coating is thicker and more protective, both in and out of doors, as the Oxichloride dries into a hard, tenacious layer, more like an enamel than paint.

By using the Oxichloride of Lead in the materials with which it is mixed to receive Oil and Turpentine being employed in equal parts for work technically called Priming, and for work intended to be varnished. For the use of Paper Stainers and Leather Dressers, it is found to be particularly suitable.

The Washington Chemical Company strongly recommend the Oxichloride of Lead to the notice of consumers, both on account of its economy and its various good qualities as a paint.

AGENTS

- LONDON: Messrs. Hignett, Spence, and Co. Upper Thames-street. Mr. Richard Cook, 7, New-lane. Messrs. Johnson and Mottram, 11, St. James's Place. Mr. John Douglas, 11, St. James's Place. Mr. John Young, 11, St. James's Place. Mr. Richard Pearson, Tottenham and Plymouth. Mr. Wm. Bailey, Jan. Green-side Quay of Scotland. Mr. John Strachan, Glasgow. Mr. John Strachan, Glasgow. Mr. P. Leamy, 11, Middle Abbey-street, Bristol. Messrs. William Sturgeon, Jan. and Co.

WHISAW'S REGISTERED IMPROVED TELEKOPHONON FOR SPEAKING-PIPES.

By means of this invention speaking-pipes may be rendered universally available for Public Buildings, Club Houses, Noblemen's Mansions, City Warehouse Offices, &c. &c. It consists of a whistle mouthpiece of ivory, wood, or metal, with an indicator attached by means of which, in case of two or more speaking-tubes being inserted into one room, the mouthpiece from which a whistle is made is readily ascertained.

The newly-registered invention also embraces a plan (as shown in the right-hand figure annexed) to surround the necessity of blowing into a speaking-pipe when the whistle at the further end is required to be sounded. Manufactured solely by KEPP and COMPANY, 24, 25, and 26, Chandos-street. And to be had retail of all respectable ironmongers.

CHEAP, LIGHT, AND DURABLE ROOFING. CROGGON'S PATENT ASPHALTE ROOFING FELT, has been extensively used and pronounced efficient, and particularly applicable for warm climates.

It is a non-conductor—and, it is portable, being packed in rolls and not liable to damage in carriage. And it affords a saving of half the timber usually required. It can be easily applied by any unskilled person. From its lightness, weighing only about 4 lbs. to the square of 100 feet, the cost of carriage is small. Under slate, gravel, or tiles, it is the most effective non-conductor.

PROOFING FELT, for damp walls and for damp floors, under carpets and floor cloths. Price ONE PENNY per Square Foot. CROGGON and CO.'S PATENT FELTED SHEATHING, for Covering Steam Boilers, Pipes, &c., preventing the radiation of heat, saving 25 per cent. of Fuel, and decreasing Rupee. Resistant to acids, and full instructions, on application to CROGGON and CO., DOWGATE-HILL, LONDON.

IMPROVED WHITE or OXIDE of ZINC PAINT, &c.

under H. M. Royal Letters Patent. LANGSTON, SCOTT, and WHITE, SOLE MANUFACTURERS IN THE UNITED KINGDOM. Grand Surrey Canal Dock, Rotherhithe, London.

Messrs. L. & W. have succeeded in removing the practical objection to its use, viz. want of body. They are the only makers of efficient ZINC DRYERS, without their outside work, so-called, &c. &c. (Wholesale only.) Price under that of genuine white lead.

WHITE SUFFOLK and RED FACING BRICKS of superior quality. Moulded Bricks to any pattern.

CWILEY, KENT, and BEXLEY BRICKS; also Yellow and Pale Welsh Rag-Stone, Portland, Shippers, &c. &c. KENTISH RAG-STONE of the finest quality, and of the blue hue so much approved by architects, can now be supplied, at a FURTHER and CONSIDERABLE REDUCTION IN PRICE. Apply to Mr. BENJAMIN GOSGH, 27, Newington-courtyard, Newington Road.

BRICKS.—Main Cutters, Yellow and Pale

Reds, &c. &c. and Bricks of good and second quality, constantly on sale at H. DODD'S Brickfield, which are only a quarter of an hour's walk from the City.—H. D. earnestly requests purchasers to favour him with a visit, in order to inspect his stock, and to judge for themselves.

These bricks are moulded, well burnt, and usually free from defects; a very large proportion of the stock being suitable for external use. Apply to HENRY DODD and CO. at the Company's Works, Hotten Road, Brickfield, Grand walk near the Broadway Branch, Hotten. R.B. Not paid of approved quality constantly on sale upon reasonable terms. This sand, from its not containing any saline matter, is acknowledged to be preferable to other sand.

BRICKS.—FOR SALE, a quantity of large

FLINTS, which are well adapted for boundary walls, and which have a very good effect when used with bricks for quoins, &c. in buildings of various descriptions. They are also of the best kind for faced work for churches, &c. and can be delivered elsewhere any where on the Thames below Vauxhall-bridge at 1s. per ton in quantities of not less than 50 tons at a time. At the present price of bricks, a very large saving may be effected by the use of flint. Discount allowed for cash.—Apply to HENRY DODD and CO. Manufacturers of Bricks, Tiles, Limes, &c. Gray's Thurrock, Kent.

BRICKS.—A large quantity of BRICKS for

SALE; can be delivered at the Eastern Counties Railway Station. Also LIME, at 7s. per cubic yard, delivered at the East end. Granite Railway.—Apply to Mr. SAMUEL TRICKETT, Victoria wharf, Isle of Dogs.

TO BRICKMAKERS desirous of supplying the

LONDON MARKET, besides the home requirements.—A splendid BUILDING BRICK is now offered, within twenty minutes' railway carriage from London. The railway trucks might be loaded from the side of the estate, which admits the railway.—Apply, in the first instance, by letter only, to P. B. W. Mr. Sharp, 25, Throgmorton-street, City, London, giving full name and address.

ALLOA FIRE BRICKS, TILES, LUMPS,

GRATE BACKS, CLAY, &c. &c.—The attention of Contractors, Engineers, Builders, Gas Companies, and Others, is respectfully called to these excellent Fire Bricks, their power of resistance to the most extreme heat being superior to that of the Staffordshire Brick, while the price is not higher than that charged for the most common descriptions.—Samples and price lists may be had on application to TRAQUAIR and Co. 5, Bank-side, Southwark, who are ready to enter into contracts with large consumers on the most advantageous terms.

PAN TILES, 52s.; Plain, 35s.; superior White

Brick, 40s.; Red Ant, Fire Brick, 30s.; Best Staffordshire, 25s.; and New-castle Fire Bricks, Lumps, Tiles, Clay, Window Lams, &c. &c. and other shaped Goods, Windsor and Norwich Oven Tiles and Bricks, Dutch and English Clankers, Patent Matt-tiles and Ferro-drye Bricks, perforated Tiles, 12 in. and 9 in. Parva tiles, superior quality and color, at WALKER'S old-established Mortuary Wharf, Bankside, Southwark, London. Thames Sand, Concrete, Gravel, &c. &c.

HEAL and SON'S EIDER DOWN QUILTS

are made in Three Varieties.—The Bordered Quilt, the Plain Quilt, and the Duvet. The Bordered Quilt is in the usual form of Bed Quilt and is a most elegant and luxurious article. The Plain Quilt is smaller, and is useful as an extra covering on the Bed, as a wrapper to the Carriage, or on the Couch. The Duvet is a new Case filled with Eider Down, as in general use on the Continent.

List of Prices and Forms sent free by post, on application at HEAL and SON'S Bedding Factory, 125, Tottenham Court-road.

GUTTA PERCHA CURTAIN and CORNICIE

RINGS.—These Rings have long been approved by the Faculty, particularly for use in dental practice. Owing to the peculiar properties of Gutta Percha, these Rings do not make a noise when drawn along the pole or cord. The following sizes may be had, with or without large Cornicie: 1/2 inch diameter, 1/2 inch dia. 2 inch dia., 3/4 inch dia., 1 inch dia., 1 1/4 inch dia., 1 1/2 inch dia., 2 inch dia., 2 1/2 inch dia., 3 inch dia., 3 1/2 inch dia., 4 inch dia., 4 1/2 inch dia., 5 inch dia., 5 1/2 inch dia., 6 inch dia., 6 1/2 inch dia., 7 inch dia., 7 1/2 inch dia., 8 inch dia., 8 1/2 inch dia., 9 inch dia., 9 1/2 inch dia., 10 inch dia., 10 1/2 inch dia., 11 inch dia., 11 1/2 inch dia., 12 inch dia., 12 1/2 inch dia., 13 inch dia., 13 1/2 inch dia., 14 inch dia., 14 1/2 inch dia., 15 inch dia., 15 1/2 inch dia., 16 inch dia., 16 1/2 inch dia., 17 inch dia., 17 1/2 inch dia., 18 inch dia., 18 1/2 inch dia., 19 inch dia., 19 1/2 inch dia., 20 inch dia., 20 1/2 inch dia., 21 inch dia., 21 1/2 inch dia., 22
